The American Citizen Services Unit at the U.S. Embassy is instituting new hours to better serve our customers. Beginning Monday, June 5, routine passport and notary services will be available from 9:00 a.m. to 11:00 a.m., Monday through Friday. U.S. citizens coming for passport applications or for addition of visa pages for their current passports are encouraged to schedule an appointment for their service by sending an e-mail to klconsular@state.gov with the date and time of their proposed arrival at the Embassy.

Reports of Birth Abroad for children born in Malaysia to U.S. Citizen parents and other first-time passport applicants will be scheduled for special afternoon appointments. Applicants should contact us by e-mail, or telephone if necessary, to request an appointment date and to receive more information about these types of applications.

We hope to make your visit to the Consular Section as efficient as possible. To assist in this, please visit our website at <http://malaysia.usembassy.gov> and click on the link for American Citizen Services to find out more about what you will need to complete your service.

Thank you.
